·HELPFUL NOTE·

Read this note with your friend. It may be obvious, but it's worth saying - Our friends see us differently than how we see ourselves. Your friends like you for a reason, probably several reasons. This interview lets you and your friend reflect back a different version of each other, in a way that maybe you wouldn't think of on your own.

In the spirit of seeing yourselves differently than you normally would, we have included some handy accessories to get you in the mood. Have a look. Choose at least one item and wear it, okay?
